MOVIING DAY	ESSENTIALS BAG ITEMS
□ Designate a room or space for your pet to be safely away from the loud, stressful action - a room is ideal, but a secure enclosure will work too	
□ Plan to move your pet to and from the car quickly for their safety - assign yourself or one family member with this task	
☐ At the new house, put the pet in their own room with food, water, a toy, and a blanket that smells familiar
